

COMMON ICD-10 CODES

Medicare and other 3rd party providers require the requesting physician to submit accurate diagnosis information (clinical symptoms) obtained from the patient's medical record for each laboratory test and/or profile to justify the medical necessity for the sciences requested. The ultimate responsibility for correct coding lies with the ordering physician.

ICD-10	Description
Z31.430	Encounter of female for testing for genetic disease carrier status for procreative management.
Z34.80	Encounter for supervision of other normal pregnancy, unspecified trimester.
Z34.90	Encounter for supervision of normal pregnancy, unspecified, unspecified trimester
